

# JBLED A4

## OPTICS AND LIGHT SOURCE

- Zoom optics 8°-28° beam angle, motorized
- Highly efficient lens system
- 60 Luxeon high power LEDs

## EFFECTS

- 450° Pan / 330° Tilt movement
- Additive color mixing 8bit or 16bit
- Additional CTC channel
- Optimized color mixing performance due to LEDs packed in higher density
- High resolution electronic dimmer 0-100%
- True color dimming
- Electronic strobe with pulse and random effects

## MOVEMENT

- High-resolution three-phase stepper motors
- Precise and fast movements
- Extremely quiet, suitable for noise-sensitive applications

## CONTROL

- DMX-512
- Illuminated graphics display, electronically revolvable
- On-board scene programming

## POWER CONSUMPTION

- Max. 220VA, 90-240V, 50-60 Hz

## CONSTRUCTION

- Compact housing
- Dimensions: 12.6 x 14.6 x 7.88 inches
- Weight: 19.5 lbs

## THE NEW COMPACT LED CLASS WITH OPTICAL ZOOM SYSTEM

JB-lighting presents the new JBLED A4 featuring the PLASA Award-winning optical zoom system and 60 Luxeon Rebel high-power LEDs. It is the perfect tool for smaller stages, churches, clubs and tradeshows.
